## BASKETBALL CLINIC AT LOYOLA SATURDAY

Loyola varsity basketball coach Doug Daigneault and jayvee pilot Alex Siderenko will conduct a clinic for all interested Montreal area basketball players and coaches Saturday in the Athletic Complex.

The Clinic, to help develop local talent, gets under way at 2 p.m. and continues until approximately 5 p.m.

All local high school coaches and players are invited to take advantage of the clinic, as well as coaches and players in the various other Montreal minor league teams.

The program starts with the viewing of basketball films for the players. The coaches concurrently will be attending lectures on drills, techniques and team play.

Later members of the Loyola College Varsity team will put on a demonstration.

The program will conclude with the players in attendance taking part with Loyola's varsity in drills.
